

Mobile Cost Savings Checklist

Find Hidden Wireless Expenses in 15 Minutes

Line Utilization & Accountability

- ☒ Do we have full visibility into which lines have gone unused for 30+ days and why?
- ☒ Are we automatically flagging and suspending lines that show zero usage or no assigned user?
- ☒ Can we match every active line to a current employee, use case, or department budget?

Device Lifecycle & Inventory ROI

- ☐ Are we tracking device age, warranty, and upgrade cycles in a central system?
- ☐ Do we recycle, resell, or repurpose retired devices to recover costs or enable other teams?
- ☐ Are unused backup devices justifying their place in inventory, or are they quietly draining budget?

Carrier Discounts & Optimization

- ☐ Do we have a regular cadence for revisiting and renegotiating our pricing structure?
- ☐ Are we still in the optimal discount tier, or have changes in volume or usage created leakage?
- ☐ Have we verified that our contractual discounts are consistently applied, line by line & feature by feature?

Contract Terms & Strategic Alignment

- ☐ When did we last audit our mobile plan for alignment with actual usage and headcount?
- ☐ Are we locked into outdated plans due to missed renewal alerts or auto-renewals?
- ☐ Are we still accepting our contract terms as-is because renegotiating feels too complex or time-consuming?

Policy Enforcement Through MDM

- ☐ Are we using MDM tools to enforce time-based, location-based, or role-based usage restrictions?
- ☐ Are personal apps, streaming services, and non-work activity inflating company data bills?
- ☐ Can we monitor and control mobile activity in real time, without manual audits?

Usage Analytics & Reporting Gaps

- ☐ Can we proactively identify cost spikes before they hit the bill?
- ☐ Are usage trends tied back to business units, regions, or individual users?
- ☐ Do executives receive actionable insights or just raw data from our reports?

BONUS

Hidden Fees to Watch For:

- ☒ International Roaming Charges
- ☒ Premium SMS or App Subscriptions
- ☒ Activation Fees or Upgrade Fees
- ☒ Device Insurance You Don't Use
